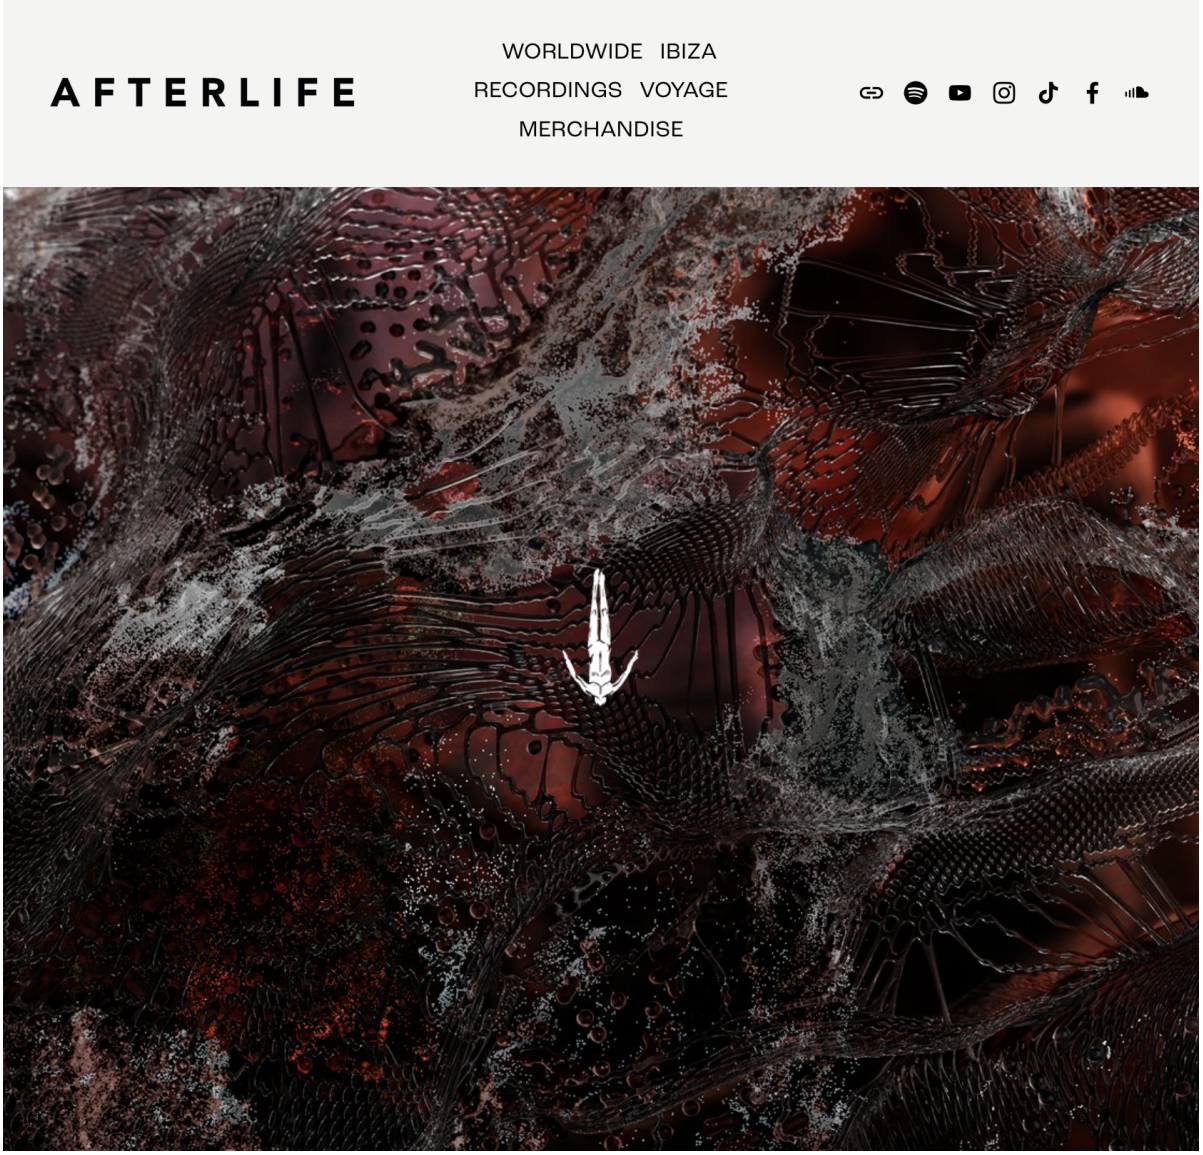
1st page:

- follow the colors, position and format for the letter.
- I will send you the logo of the company
- Image: I would like to put out a short video that acts like a boomerang or an image (I don't have it right now).
- Pages info: THE JOURNEY | K.O´S | EVENTS (same format and color)
- Apps to the right: instagram and youtube (same format and color).



When scrolling down the bar at the top stays (I want that to happen to).

2nd page:

- Same format and colors
- Info the same (change company name only)

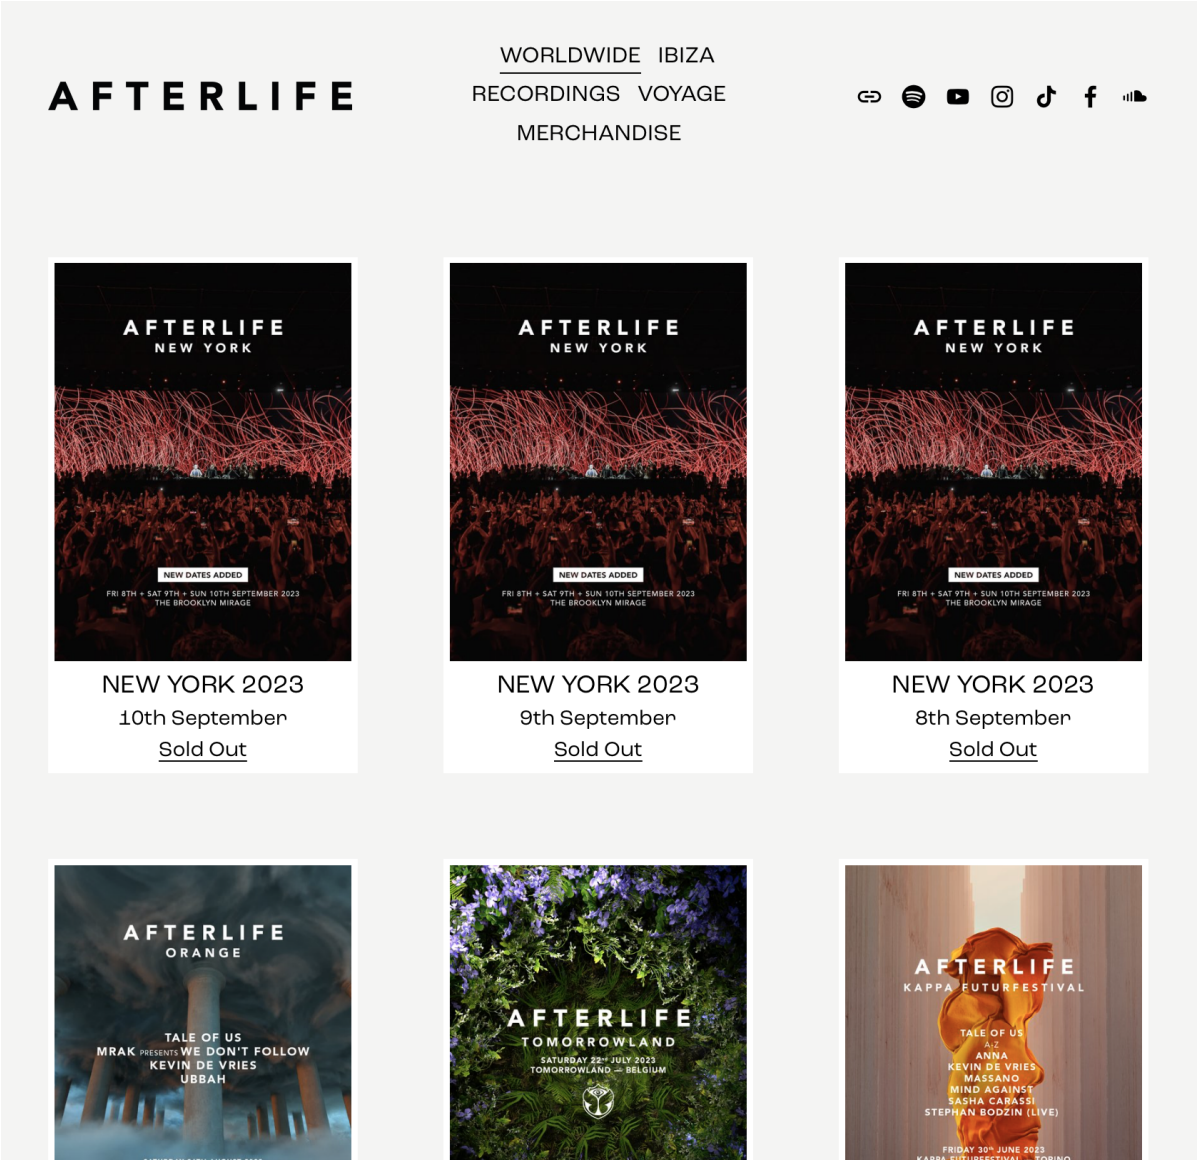
Events page

- follow the format as worldwide
- I must be able to post posters in this same format, in a practical way.



K.O´S

- Info: I will send this to you soon
- follow format and positions.
- Bottom images I will send soon (auto-image transition)
- Instead if the event sold out, a button to the right (same altitude), that says join the next event. This button must take them to the event page but with the filter of KO´S (so they can see what they are looking for).

THE JOURNEY

- Info: I will send this to you soon
- follow format and positions.
- Instead if the event sold out, a button to the right (same altitude), that says join the next event. This button must take them to the event page but with the filter of KO´S (so they can see what they are looking for).
- Bottom images I will send soon (auto-image transition)

Registration and payment:

Here I'm not quite sure how to do it, I would like to explain my idea in order to understand each other better.

-Important information, accept box.
-Register team and payment.
-Event registration, ticketing, and RSVP functionality are necessary.

Captains

Email Marketing:

- We want to communicate before and after the event.
- We need a mailing system for these.
